

Third Annual Bentley Flower Show Attracts Good Crowd

Colorful Display Gains Favorable Comment For Popular Event

With the weather at its best, the third annual Flower Show under the auspices of the Bentley Community Garden Club was held yesterday (Wednesday) in the Bentley Community Hall. The show drew a steady stream of visitors throughout the day who were delighted with the display. The weather during the past month adversely affected some of the entries and detracted somewhat from the showing of previous years, but nevertheless, some of the exhibits were exceptionally fine. The flowers, especially in some varieties, were up to the usual high standard, and the vegetable and fruit exhibits contained fine collections. The additional class for roses brought out several splendid specimens, proving conclusively that this beautiful flower can be grown to perfection in this climate, contrary to general belief.

Raising Level of Gull Lake Topic At Annual Meeting

L. S. Cutler, Rimbey, Explains Proposal to Divert Blindman River Into Lake

A detailed explanation of the proposal to divert the waters from the east branch of the Blindman River into Gull Lake was given Wednesday night by L. S. Cutler of Rimbey at the annual meeting of the ratepayers of the Village of Gull Lake, held in Fernie's Hall. Cutler, by aid of a map, showed the terrain around the north part of the lake. He explained that by digging a cut, approximately nine feet deep and about two miles in length, the waters now flowing down the Blindman River into Gull Lake, "The Blindman River," he stated, "is twelve feet higher than the north end of Gull Lake at its high water mark."

Mr. Cutler informed the ratepayers that a committee had been appointed by the Boards of Trade of Lacombe and District, Bentley and Rimbey to check into the proposal and determine the volume of water that would be available. The committee of Lacombe and District, Bentley and Rimbey was asked to work along with these committees in an endeavor to find out the feasibility of the proposal.

Beats Are Discussed
Most of the discussion for the evening centered around the condition of the roads, and the repairing of them. The narrow road from F. E. McLeod's corner to Ebeling's Beach received a great deal of comment. Some felt that the road should be widened, the trees to be cut down to allow this width. Others, living in that vicinity, believed the lane to be a pretty drive, and recommended that no trees be cut down. A motion was finally passed to the effect that the road should be widened where possible, but that the most dangerous large trees should be cut down, and these only if it was proven impracticable to circumvent them by running a road around the trees.

The patrolling of the lake during the fall and early spring also was discussed as ratepayers claimed some steps should be taken to prevent marauders from breaking into the summer homes. It was suggested, however, that with so long a beach to patrol, the protection to be afforded by a watchman would be negligible, and no steps were taken. Similar opinions were voiced regarding the stray cattle along the beach in fall and spring, and a motion was finally passed to "recommend to the council that a by-law to provide a penalty for stray cattle in the village be passed, if the passing of such a by-law is within the powers of the council."

Appreciate New Sidewalk
Satisfaction with the new sidewalk from Jenkins' to Fernie's was voiced, and the ratepayers commended the council on their zeal in providing this walk. It was suggested that large signs be placed along the beach to warn automobile drivers to stay off the beach with their cars. The council was also requested to have posters printed, such posters to be posted up in all cottages, to warn those living at the lake of the regulations regarding bonfires, both on the beach and on private property.

This Week's Thought

Hardship is the native soil of manhood and self-reliance.

Queen Mary Smashes Jetty at Ocean Dock

Carried by a high wind, the liner Queen Mary broke from the guidance of ten tugs at Southampton while she was being towed from a graving dock to her own berth, and crashed into a jetty at the entrance to Ocean Dock. The wreckage of the pier, cut almost in two, is shown here. The Queen Mary was not damaged by the sudden impact.

Bride-Elect Honored At Shower Tuesday

Honoring Miss Helen Sage, whose marriage is to take place on the first of September, several old friends of the family sponsored a miscellaneous shower which was held at the home of Mrs. C. Danner on Tuesday evening, Aug. 23. Gifts were presented to Miss Sage by a small bride couple, Marjorie Buck and Jackie Kungesser, and the recipient graciously voiced her thanks to each donor as the gifts were opened. Those assisting Mrs. Danner with the serving were Mrs. A. Macconnachie, Mrs. F. Buch, Mrs. J. Kungesser, Mrs. C. Hembury, Mrs. Matheson, Mrs. J. N. B. MacDonald and Miss Edith Thompson.

Family Holds Re-Union and Farewell Dinner

A family re-union and farewell dinner was held on Sunday last at the home of Mr. and Mrs. John Kungesser, in honor of the former's sister, Mrs. T. H. Allison, who is leaving shortly for her home in Chicago. All those present were Mr. and Mrs. Joe Kungesser and family of Mirror, Mrs. K. Kungesser, Mr. and Mrs. Fred Kungesser and family, Mr. and Mrs. Isadore Kungesser and family and Mr. and Mrs. J. L. Craigen, all of Lacombe. Mr. and Mrs. S. H. Kungesser, of Red Deer, and Mr. and Mrs. Richard Kungesser of Lacombe were unfortunately unable to attend.

LOCAL COURT ROOM BEING RENOVATED

Approximately one hundred dollars is being expended by the Town of Lacombe on renovating and re-equipping the court room here. New chairs are being purchased and modern lights will replace the old type used in the court room for the past 20 years. The work will be finished within a week or so.

Driver Falls Asleep; Wrecks Car Saturday

Over \$200 damage was done to a new Dodge coupe when William Connor of Edmonton, owner of the car, ran off the Calgary highway by J. S. McCormick's residence on Saturday afternoon. Mr. Connor was returning from Vancouver in company with his wife and daughter at the time of the accident. He momentarily fell asleep at the wheel, and the car hurtled off the road at about 40 miles per hour. The coupe smashed a tree a glancing blow and was thrown against the telephone pole at the corner. The occupants of the car miraculously escaped injury.

NEW ARRIVALS

Born at the Lacombe and District Community Hospital: To Mr. and Mrs. Glen Walker, Tees, on August 21, a son; to Mr. and Mrs. Hans Mueller, Lacombe, on August 23, a daughter. To Mr. and Mrs. Claire Williamson, Lacombe, a son, August 25.

School Opens Next Week

School bells ring again next Thursday in the Lacombe school and many other schools in the district. Sept. 1, students will flock back to school to begin a new term in a new grade. While city schools are not opening until Sept. 6, local school trustees wish to take advantage of the first two days of the month to get the classes organized, so that the actual work can get under way by Sept. 6.

Definite word as to when the rural schools are opening has not been received. It is believed the majority will open in company with Lacombe school next Thursday.

BENTLEY MAN ELECTED DELEGATE TO ALBERTA WHEAT POOL

In the election of Alberta Wheat Pool delegates which took place on August 15, Alfred B. Haarstad of Bentley was re-elected by acclamation. Mr. Haarstad will represent Sub-District 2-4, and holds membership No. 30752 in the organization.

.72 Inches of Rain Over Week-End

Three-quarters of an inch of rainfall over the week-end with scattered showers on Monday threatened to turn one ripened green grain again. Farmers, delayed with cutting, are fearful of the menace of frost, never far distant at this time of the year. It is believed that the rain of the past two weeks will delay harvesting by a week in some districts, with water laying in the low spots in fields.

Warm weather, with clear skies, is now needed to give the grains an opportunity to ripen and get the cutting finished.

TWO SOFTBALL GAMES AT GULL LAKE NEXT SUNDAY

A team selected from the stars of all the country teams west of Gull Lake will play a game of softball against Lacombe All-Stars next Sunday afternoon in Gull Lake Park. The game is scheduled to start at 2:30 p.m. Immediately following, a game will be played between the Gull Lake Girls and Ponoka Maple Leafs.

Thermometer Reading 32 Above Tuesday

Temperatures Tuesday night dipped to the freezing mark, touching some of the less hardy tender plants and flowers around town. Tuesday was the only night it dropped to the 32 above zero mark, and the frost was insufficient to cause damage to crops in the district. Old-timers claim that the Lacombe district may well enjoy two or three weeks more of summer weather, and believe that the frost danger is over at least for the next week or so. But the Gull Lake makes no predictions.

Entries Now Open For Bible Study Contest

Further particulars of the Bible Study Contest announced in the Globe some weeks ago, in which \$15 in prizes will be offered, is now published. The contest is open to all those from 12 to 25 years of age, and applicants are requested to send in their names to Mr. Arthur Newman, P.O. Box 267, Lacombe.

The competition will be oral and will follow the lines of Professor Querry's radio contest over CBC. Questions are to be asked in the form of a quiz on the Bible, and the contest is to be held in public October 2 next.

Those wishing to compete must send in their names not later than Thursday, Sept. 15.

Third Anniversary Of So-Cred Govt. Observed Here

Members of the Lacombe Social Credit Group No. 1 gathered at the home of Mr. and Mrs. W. F. Gramme Monday night to listen to the broadcast from Edmonton on the occasion of the present Government's third anniversary. It was three years ago Monday, August 22, 1935, when Premier Aberhart's Government was swept into power in Alberta.

Following the broadcast, short addresses were given by T. F. Roberts, president of the local group, and Norman Jaques, M.P. for the riding at the Duncan constituency, both of whom were present. According to information received from J. Russell, secretary of the association, "about fifty" were present at the meeting.

ONTARIO M.P. VISITS LACOMBE

R. J. "Bob" Deachman, M.P. for Huron County, Ontario, was a visitor to Lacombe last week. An old friend of "ye editor," he paid a visit to the Globe office. He also spent some time with his old class-mate, F. H. Reed, Superintendent of the Experimental Station, who both attended the same college together.

Amateur Contest To Be Held Here November 11

An Amateur Contest and Dance will be held in the Central Alberta Pavilion on Friday, Nov. 11. This was definitely settled at a meeting of the executive of the local Canadian Legion held immediately following the Decoration Day services Sunday. It was decided that the arrangements for the contest and dance would be similar to those of the past, with one possible exception—a proposal to divide entrants in the contest into two classes, offering a first, second and third prize for a Junior Class, and similar prizes for an adult class. Details were not worked out definitely at the short meeting.

It would be advisable for those wishing to enter the contest to start practicing for the big event now.

Lacombe Flower Gardens Prominent Again This Year

Hot, Dry July Poor Month for Growth; Flowers Bloom Later Than Usual

Lacombe's flower gardeners are now bringing to a close one of their most successful seasons, in which the quietest of blooms were on display from early in the Spring until the present time. Although winds have damaged high plants such as gladioli in some spots and chilly weather during August retarded the growth of some of the smaller plants, Lacombe gardeners can well be proud of the showing made this year. Many comments on the beauty of Lacombe's flowers have been made by visitors in town, especially from those who inspected the Memorial Park, the two local nurseries and the Dominion Experimental Farm, where a profusion of flowers and shrubs have been on display throughout the summer.

K. Fyströ, C.P.R. section foreman, has a grand display of zinnias, red dahlias, gladioli and other flowers, well arranged. He is competing for C.P.R. garden prizes this year.

The F. Davies place on east Hamilton Avenue has a nice collection of golden daisies and purple asters.

Lovely Border Flowers
C. O. Ingram again presents a nice array of border flowers at his home on Nanton St., including very pretty pansies and clarkias.

At the garden of Mr. Decker on Hamilton Avenue, some nice zinnias, poppies and gladioli are to be seen.

Mrs. Tees, at Tees' Corner, can well be proud of her garden this year, in which yellow has been the predominating color.

With nice borders of bright pinks, nasturtiums and mixed flowers giving a succession of blooms throughout the summer, the home of Miss Plummeridge has set a high standard of neatness.

On Alberta Street, bright geraniums and a large number of gladioli again brighten the Earl Scott home. Across the street, Jesse Soverby has a splendid display of geraniums, zinnias and mixed flowers. Frank Parsons keeps up the good work with his usual array of colorful blooms. A new garden on this street is that of F. W. Griffin, who has had some nice borders of mixed flowers throughout the summer.

Alex Ellis again shows a splendid row of sweet peas, some nice flower boxes and an array of gladioli in delicate shades. George Doherty, on Stanley Street, has one of the best flower displays in town. Giant petunias, zinnias, stocks and asters in diamond and circular centerpieces set this garden off in grand style.

At the Dr. Hynes home, tall delphiniums, hollyhocks, gladioli, tiger lilies, roses and stock with blue spruce for a contrast, make an outstanding garden. The landscaping in this garden has been very well done.

Further south on Stanley Street, Howard Landon has again cultivated a nice back garden of mixed flowers.

At the Cameron Home
Sweet peas, dahlias, mixed flowers and trees, including an ash tree loaded with berries, are a stand-out. Earlier in the year this garden made the headlines with some grand pieces of art.

C Percy Parsons again has a fine showing in his garden, with pansies predominating. Nearly the W. Avery home presents lovely dahlias, sweet peas and asters, all very well arranged.

Harry Teare relies on mixed flowers in his garden, and they make a nice show at his home on Day Street.

Exceptional Dahlias
Margold, dahlias and gladioli are well worth seeing in the back garden of Charles Raymond. The dahlias here, mostly dark reds, are a stand-out. Earlier in the year this garden made the headlines with some grand pieces of art.

The Dr. Stewart place on Hamilton Avenue features a neat garden, with dahlias and sweet william predominating.

The Gordon McIntyre home on Oliver Avenue is in a class by itself, although not quite as nice as last year, as the gladioli are not up to their usual high standard. White ball show dahlias, tubenose dahlias, giant mixed zinnias, snapdragons and purple statice grow in abundance to the glory of the show.

On Bailey Avenue, B. S. Cameron has a splendid rockery and a nice garden of petunias, tiger lilies and iceland poppies. Norman McLaren makes a good showing nearby with petunias and other flowers.

All Price is again well to the fore with a well cultivated collection of pinks, asters, zinnias and bright geraniums in window boxes. Mr. Price has made many improvements in his back garden this year; it is worthy of a visit.

A New Garden
J. Baldwin has a lovely garden featuring lovely asters, moss roses, extra good dark red dah-

Rain Interferes With Decoration Day Services

Rev. A. L. Carr Conducts Main Services in St. Andrew's United Church

"Security is one of the great principles of life and behind all law and all wars lies the desire for security," said Rev. A. L. Carr as he gave the memorial address on Decoration Sunday in St. Andrew's Church. Owing to a heavy downpour of rain part of the service was held in the church and completed in Memorial Park, and the decorating of the graves at the cemetery was dispensed with.

Continuing, Mr. Carr said: "In the face of world conditions today, the principles of security may well be asked: Has there been a realization of the security and safety for which our men laid down their lives in the Great War? Greed, selfishness and dishonesty are dangers which threaten to undermine the national life of today, which threaten to wreck homes and individual lives. The torch of truth and righteousness was thrown to us: 'tis ours to hold it high by embodying in our lives the principles of purity, generosity, honesty, etc., all of which may be summed up in the one word, 'Love.'"

Mayor Jones Presides

Mayor E. H. Jones presided as chairman and spoke of the serious situation which prevailed in many countries, and which he likened to a powder mine ready for the spark which will set it off. The Great War, he said, may be a plaything in comparison to the results of another world war, and which, Mayor Jones felt, would destroy civilization. Rev. F. W. Coxson read the Scripture lesson from Deut. 4 ch., and the King's Message was read by S. T. Halton. A solo, "O Valiant Hearts," was sung by Thos. Wilks.

Following this service the congregation repaired to the park, where Patricia Jardine placed flowers on the cenotaph while the names of the departed were called by S. T. Halton. C. W. Brailhouse sounded the Last Post, and following the two minutes silence sounded the Reveille while the flag was raised by S. T. Halton. Wreaths were then placed on the cenotaph by representatives of the Canadian Legion and Last-We-Forget Club.

Barley Club Competition Results Out

Results of the standing crop competition of the Junior Barley Club, Red Deer, have been released by F. H. Newcombe, district agriculturist. Dry weather in July materially affected the showing made by the boys. The results are:

Frank Allen 93, Alfred Swainson 90%, Richard Swainson 88, Charles Blackmore 86, Frank Hazlett 74, Jack Darragh 74, Allan Brock 72, A. J. Newton 72, Robert Cruickshank 70%, Arnold Hillman 69, Harry Fowler 68, H. F. Hurrell, on Bailey Ave., 66%, Fred Olynick 66, Richard Kaiser 64%, Donald Miller 59, Allen Smith 58, Glynn Jones 43. The Club will hold a seed fair in November.

lias and marigolds, which make a fine display, considering that this garden is a comparatively new one.

The home of Ed Newman provides an array of safety, with asters predominating. Brilliant purples, reds and yellows show off to good advantage.

H. F. Hurrell, on Bailey Ave., also had a good display of mixed flowers earlier in the season and (Continued on Page Four)

THE LACOMBE GLOBE

A strictly independent weekly newspaper, published every Thursday in the Globe Building, Nanton St., Lacombe, Alberta.
 Harry J. Ford - Publisher
 SUBSCRIPTION RATES

Three Months in Canada.....\$ 5.00
 Six Months in Canada.....10.00
 One Year in Canada.....20.00
 One Year in United States.....25.00

The Lacombe Globe stands for:

1. The advancement of Lacombe and district in agricultural, industrial and community life.
2. True democratic government in Alberta.
3. Reduction of taxes and the public debt through the medium of safe, sane reform.
4. The abolition of direct relief through the provision of public works.
5. Better roads for Alberta.

THURSDAY, AUGUST 25, 1938

E. L. Gray's Puzzling Speech

HOPE for unity among the political parties of Alberta received a setback in the recent speech made by E. L. Gray at High River recently, in which the Liberal leader stated his party will enter a Liberal candidate, or an ally, in every riding in the Province. His words struck a discordant note among thousands of Alberta citizens who look upon Unity as the only hope to ensure the election of a new government in this Province. His statement is a direct contrast to his ardent plea for co-operation made at the Liberal convention in Calgary last year at the time of his election as Liberal leader; in fact many who have read his first speeches and his speech at High River will find it hard to believe that they were made by the same man.

Nor can it be said in Mr. Gray's favor that the need for unity among political bodies in Alberta have been lessened by any recent developments; in fact, the victory of a Social Credit candidate in the East Edmonton Federal by-election plainly showed that the united strength of all parties will be needed to overcome the present Provincial Government in Alberta.

The remarks of Mr. Gray, however, should at least be cheering to one group, Premier Aberhart and his Social Credit members of the legislature—for if the leaders of all political parties in Alberta made statements of policy similar to those made by the Liberal leader, the chances of the return of the Social Credit party to power at the next provincial election would be greatly enhanced.

A Mutual Problem

THE proposal of the United States to get together on methods of salesmanship to avoid "throat-cutting" competition in the sale of the two countries' export wheat surplus, is one that will find favor with the majority of the residents of Canada. The U.S. is planning to subsidize the wheat growers of their country, affording much the same protection to their farmers as Canada's aid in pegging the price of wheat.

The wheat growing countries of the world are facing a serious situation. With an estimated one billion bushels of wheat to be dumped on world markets this fall, the expected consumptive demand is not believed to cover more than half this amount. The world faces a wheat surplus, then, of close to five hundred millions of bushels. With once-wheat importing countries rapidly striding towards self-sufficiency in the production of grain, and tariffs and barriers facing wheat exporting countries from every corner of the globe, the farmers are looking into a blank wall.

If the United States and Canada, which are two of the largest wheat exporting countries of the world can join hands in an endeavor to market their wheat at a maximum price to the grower and a minimum loss to the government, they have paved the way for possible similar actions in other mutual marketing problems of the future.

The Country Editor

(From the Calgary Albertan)

AMONG ninety-four Canadian weekly newspapers the Lacombe Globe has just been placed third among the best all-round newspapers of its class. The award is one of those under the auspices of the Canadian Weekly Newspaper Association and we believe people of the Lacombe district, even though there are some who disagree with the paper's policy will agree that for "all-round" newspaper work The Globe has well earned the distinction.

A word of appreciation, too, to the Association which thus encourages high standards in "country" journalism. We doubt seriously if that standard would be any lower if there were no such tangible rewards, for most of our country editors belong to that class of queer people who, so long as they can make a living, find joy in the work for its own sake; if, nevertheless the presence of palpable recognition of good work well deserves a mark to shoot at and, reinforcing the craftsman's devotion to his craft, must have helped to raise provincial journalism from where it was when the Prairie provinces were in their infancy thirty years ago.

Greetings

(From the Christian Science Monitor)

SUGGESTION was recently made in Czechoslovakia, and reprinted in the German Press, for a "compromise salute" to be used in the streets of Czechoslovakia; if, it was pointed out, the greeting was "H.H." (pronounced He He), this would mean to Germans "Heil Hitler," to Sudeten Germans "Heil Henlein," to Czechs "Heil Hodza," and to Slovaks "Heil Hlinka."

Yet it is interesting to note that it would do away with what, one imagines, are the main objects of such greetings, namely, the public proclamation of the giver's political creed, or the paying of a tribute to the other man's. The

Through the Eyes of a Country Woman

By BRIDGET

The writer of this column feels that her task this week will be a little more difficult, as last week "Punchhitter" stepped into the breach so ably and wrote such an interesting article that it will certainly take quite a little effort to keep up the standard set by this writer. However, the holiday which caused the lapse gave this writer food for thought, more especially on the subject of roads!

Now, roads, and roadbuilding, do not really come within a woman's sphere, but the effects thereof are certainly felt by them. So perhaps it would not be amiss to discuss this subject for a little while.

These thoughts were assembled last Monday week, while sitting by the Radium Hot Springs, trying to unknit the dreadful kinks caused by riding over the awful alleged "highways" from Cranbrook to Radium, so, at least, they come from the heart! It does seem so terribly short-sighted of the Federal Government to overlook the possibilities of tourist traffic. Tourists bring money to many places, and in many unexpected ways, but if there are no good roads there will be no tourists. For three years it has been my privilege to be crowded, camping a matter of sharing kitchens with two or three other parties, parking Lizzie in the smallest of lots, really quite a feat; but, this year there were not fifteen families camping there at that time. What an object-lesson! Americans conspicuous by their absence! After touring on their own, I well understand their hesitating to put their cars over the road leading into Banff National Park via Radium. When a few people have broken their necks and ruined their cars, perhaps the Government will realize that there is something sadly lacking in their road-building program. The roads inside the Park, which were the best roads to be found in Alberta or B.C., are rapidly going into a state of disrepair; their smooth surface is now pitted with potholes, and few parts are freshly oiled. The roads leading to the parks are a fifty-fifty Dominion-Provincial affair, but at present they look as if they were nobody's business! The Federal Government must lack imagination, brains, vision, or something, not to take this matter into their own hands. The tourist trade turned away through inability to face the roads this year will reach an immense figure.

There is another aspect that occurs to me to be of even greater personal importance to Canadians, and that is the lack of an All-Canada route to Vancouver. Many Canadians come from the Old Land, all of which is within easy reach of the sea, and many have hungered for a sight of the sea, but couldn't afford the trip. Quite a little of that cost would be eliminated for those who have cars, if there were good arterial roads through Canada to the Coast. Think of the hundreds of thousands of dollars spent in the States for gas, a meal here and there, a few nights' lodging, etc. This money would all go into Canadian hands if there were any respectable roads to travel. The Americans have the roads, and we have the scenery! If the Federal Government would learn to build fine highways amidst our beautiful scenery, I could visualize the whole set-up being altered; instead of Canadians going into the States, of necessity, to get to Vancouver, I could imagine Americans coming, by choice, up to Canada, for the same purpose. Their numbers in our National Parks would be materially increased, and the resultant revenue from this traffic should enable the Government to meet the high cost of this work. Anyway, relief should be a Federal matter, and in the papers every day we read of the thousands and thousands of dollars paid out by both Provincial and Federal Governments in relief. Why can't these thousands, plus many other thousands, if necessary, be put into roads? I don't believe there is a decent man living who would not feel a glow of pride in helping to build a lasting project of this type, rather than having his relief handed to him in grocery shops, etc., etc.

After all, on a purely dollars and cents basis, and laying aside all humanitarian considerations, everyone has a right to work and live in this, or any other country; and this is work that is of practical and lasting benefit to the Dominion and themselves. Roosevelt, some Americans claim, is bankrupting the States, but at least he is giving them something durable and worthwhile with his various WPA projects. For instance, the Grand Coulee Dam project has already converted a swamp with twelve people existing therein, into a thriving, delightful city of fifteen thousand. Governmental work can be a benefit to the great project, as today, thousands are directly benefiting from the work entailed. Every kind of profession, from engineer to dentist, from carpenter to laborer, florist to caterer, are represented in this colossal scheme for future betterment. It seems to me something worthwhile working for. Let us urge our Federal members to take up this question of arterial roadbuilding, financed as relief or otherwise, if necessary. Good and safe roads would make holiday-taking easier and cheaper. It is good business for everyone to get away for a short time from their everyday surroundings. In fact, if I were a lawyer, I would insist on at least one week's holiday per year, for every man, woman and child!

political aspect would be left in doubt, would be shelved; but if that step can be countenanced, would it not be logical to go further, and seize the occasion for a salute that is definite, and, in default of more eminent men, is at least, and not inappropriately, concerned with the well-being of the recipient? Why not wish each other the equivalent of "Good day?"

Dies In Ottawa

E. T. PENNEFATHER
 Director and general manager of the Capital Trust Corporation, Ottawa.
 Mr. Pennefather was prominent in financial and charity circles.

Drill For Oil West of Innisfail

With Canadian oil production at a new high for the months of May and June and with the unsettled state of world affairs, particularly in many important oil producing countries, the future of Canada as a most important and potentially large oil producing country is bright.

While interest in Canadian oil has heretofore centered about development in Turner Valley, interest is now shifting to the several new fields that are currently being explored by development interests. The opening up of one or more new, undeveloped and unexploited fields will give an impetus to further oil development in Canada such as has never been experienced in the history of Canada's oil industry.

Particular interest is being evidenced in the current diamond drill test that is being conducted by Canyon Oils Ltd., a development company, and the Canadian Western Natural Gas, Light, Heat and Power Co. Ltd., on the Clearwater anticline in the Clearwater Forest Reserve, west of Innisfail.

According to reports of geologists, the structure is an anticline of perhaps 15 miles long and two miles wide. Production is looked for in the Devonian limestone, which underlies the Banff shales, in which strata the test well starts. The drilling companies anticipate that they will strike the productive horizon at slightly over 2000 feet.

Devonian Area Is Productive

It is in the Devonian limestone that many of the prolific wells in Michigan and Pennsylvania get their production. In Canada, the Devonian limestone can economically be exploited in relatively few places. The Fort Norman field, Moose Dome and this newly discovered Clearwater structure show the greatest commercial possibilities inasmuch as on these structures the Devonian limestone occurs so near the surface.

While the Devonian limestone is an extremely hard formation in which drilling is notoriously slow and most difficult, there is compensation in that production is expected at so much shallower depth than in Turner Valley. Cost of drilling wells is, therefore, from one-third to one-quarter the cost of drilling in Turner Valley.

The opening up of a few such fields as the Clearwater structure promises to be will make Canada a great factor in world oil production. Already becoming each year increasingly important due to development progress in Turner Valley, the opening of one or more new fields will make Canada the largest oil producing factor of the British Empire. The attraction of new capital to develop new and unexploited fields will also be responsible for the extension of distribution facilities to increase the consumption of Canadian oil in eastern and western Canada as well as in other portions of the British Empire.

For a Better Local Newspaper

There has never been a newspaper printed that satisfied everybody. But there is a very simple method by which better newspapers can be produced and that is for those who subscribe to them to take an individual interest in seeing that they get the best possible personal service. If you have visitors or if you have been on a visit send or phone the information to the Lacombe

Blackfalds

(From Our Own Correspondent)

BLACKFALDS.—Rain has fallen hereabouts almost every day during the past week and farmers were complaining when they will be able to get their grain out. Some cutting has been done in between showers but a great deal remains to be done. The Searle Grain Company's records show that we had 11.28 inches of rain from April 1 to August 17, compared with the long-term average of 10.27 inches. Over half an inch fell again over the week-end.

The R.C.M.P. paid a visit to a local garden last Saturday to pull up some hemp plants that had been grown as a wind-break. They asked your correspondent to warn anyone else cultivating this plant hereabouts that it is illegal to grow it, and anyone having done so will be well advised to pull it out and have it destroyed. (Hemp has been used in other countries for the manufacture of marijuana cigarettes, used by drug addicts, hence the ban on its cultivation.) It has been banned in Canada by the Government.

Johnny Bennett was back in the district again last week and reports that he had his chest crushed while working at Trail, and is therefore unable to indulge in very heavy work. He reports having worked his way here from Vancouver by cleaning chimneys.

Move to New Home

Mr. and Mrs. Stauffer moved into their new home on the Dams farm, west of the village, last Friday.

Our school will re-open Sept. 1 and Mr. Hale will be glad to advise High School pupils as to what options and other courses they should take.

Rev. A. L. Carr was in the village last Sunday to hold a service, but unfortunately short notice was given of it and it was cancelled owing to lack of attendance. Mr. Carr intends to continue his services here from the first Sunday in September, but next Sunday at 3 p.m. he proposes to start Sunday school at Blindman, and hopes to see a good turn-out there.

The World of Wheat

By MAJOR H. L. STRANGE

Thatcher, Removs and Apex, the new rust-resistant wheats, have been "tried in the fires and have not been found wanting." This year, most unfortunately, a rust epidemic visited our Prairies, and many farmers who had to depend upon varieties susceptible to stem rust, such as Marquis, Caros, Reward, Garnet and Red Bobs, have suffered serious losses with their crops both in yield and in grade.

The new rust-resistant varieties, however, have done well, for they have suffered little or no damage from the dread scourge. Those farmers who were able to last spring to obtain sufficient seed to sow their entire fields to any one of these new varieties are fortunate; those who were not, however, will have the opportunity this coming year of obtaining their full requirements of the seed of any one of these rust-resistant varieties for good seed will be plentiful and at a moderate cost.

Resistant to stem rust as these new rust-resistant varieties are, they can only be regarded as "stop gaps," to be replaced as soon as our Canadian Plant Breeders are able to release for use some of the better new rust-resistant strains which the Dominion Research Laboratory now has in the making.

Following factors have tended to raise price: North China continues to buy Australian flour, Continent and United Kingdom purchasing U.S. Pacific wheat, drought and heat lowering corn yields in southern Europe and Danube Basin, Germany buys U.S. corn, severe drought causes wheat crop failure in Spain. Following factors have tended to lower price: Poland announces export bounty on wheat, increased wheat production in Japan, France imposes import duty on oats, barley and rye, bumper grain crop indicated in Germany, present summer estimates are higher than official, most importers confining purchases to immediate needs, widespread rains in northwest India benefit food grains.

Globe. Every little item of a local or personal nature helps that much to make a still better newspaper. That is how you can help make your newspaper more interesting and you are invited to start doing so at once. Just phone 51 and your item of interest will be taken courteously over the telephone.

Halibut are big fish, often measuring as much as five feet from nose to tail. The male is much smaller than the female.

McLaurin Beach Camp Finished August 10

McLAURIN BEACH.—What the leaders claim to be the best camp ever held by the Baptists of Alberta was concluded here Wednesday, August 10. Notwithstanding the fact that the camp was much smaller than usual owing to the date having been changed, 19 of the 37 boys present professed conversion and the rest were already professing Christians.

Harry Dean received the medal for the best all round camper. Roy Lawrence was declared tennis champion, with Lorne Baxter the runner up. In pitching Roy Kelly came first, with Walter Klippert second. Roy Kelly also excelled at croquet, with Clarence Smith in second place.

Eric Smith of Edmonton was sports leader and introduced many excellent new group games, which were appreciated by the boys. Volley ball and baseball were played all through the 10-day period. The last evening of the camp the Calgary boys played the other boys—"Calgary against the world"—and won 9 to 4. But later the World defeated Calgary in volleyball.

Three periods a day were spent in group studies. Discussions of boys' problems and especially their relation to God, were the main themes.

The camp was under the supervision of Rev. Harold Stibbard of Edmonton, who was assisted by his brother, Rev. Bernard Stibbard, Red Deer; Rev. S. M. Hirtz, Edmonton; Messrs. Harry Minchen, Calgary, and Eric Smith of Edmonton.

For the Harvest

We cater to Farmers, as we realize they require Apparel that will stand up under the hardest wear.

Sunny Crest Specs

By SPY

SUNNY CREST. — The rains have been delaying the cutting of the crops lately.

Mrs. B. F. Barr is home from the lake now and Mr. and Mrs. Lester Barr have moved home again to the "Stead" farm.

Henry Kamah is down to cut his Dad's crop. Karl Kamah is getting along fine since his operation.

Church services will be resumed at Sunny Crest next Sunday, in charge of Rev. F.G. Matthews.

Monday night there was a slight frost; very little harm done to gardens.

Mrs. Mel Morris has gone in for canning in a big way. She has purchased a canner and is canning a lot of garden fruits and vegetables.

Hi There, Folks!

Victory in this year's renewal of England's famous Diamond Sculls rowing classic went to the United States, and waving out at you is the man responsible, Joe Burk. Burk, already Canadian and American champion, had an easy time scoring his win.

Clive

(From Our Own Correspondent)

CLIVE.—Mr. and Mrs. Edward F. Schoenck of Evanston, Ill., are visiting the latter's sister, Mrs. H. B. Scott, and brother, W. E. Allison.

Mr. and Mrs. J. Cousins from Hamilton, Ont., have been visiting their niece, Mrs. M. Saluck, and nephew, W. S. Cousins. After staying a week they left for home, taking the round trip by Banff.

Mrs. Earl Forcht returned to her home last week after visiting the west coast and the northwestern States. She was accompanied by her parents, Mr. and Mrs. Fred Fisher.

Wm. Murdoch has purchased a new Chevrolet car. We are glad to hear that Mrs. S. Sargeant is much improved after her severe illness.

A very large crowd attended the show, "Maytime," last week. A number of our town citizens were glad to help the farmers during harvest.

Mr. Gammon of Peace River was a visitor to Clive recently. Gerald Locke of Banff is visiting at the home of Mr. and Mrs. A. Head.

FAST WORKER

A high school girl, seated next to a famous astronomer at a dinner party, struck up a conversation with him by asking, "What do you do in life?"

He replied, "I study astronomy."

"Dear me," said the girl. "I finished astronomy last year."

Far Behind

"European military leaders claim they have the people behind them."

"In the event of war, of course, the positions would immediately be reversed."

Teaches Farley To "Draw Long Bow"

Keen appreciation of the wonderful playground Canada possesses in the Canadian Rockies was expressed by Jim Farley, postmaster-general of the United States and organizer of the Democratic Party, who spent a pleasant few days with his daughters Ann and Betty at the Banff Springs Hotel. While at the mile-high playground, they took part in the various activities usually enjoyed by the international colour there and thoroughly explored the sur-

Around the Town

Mrs. Clara Melvin, an old-timer of this district, who has resided in the Pleasant Valley district and later in Clive, moved into town recently to take up residence here.

The Ladies' Auxiliary of Social Credit Group No. 1 will meet at the home of Mrs. Gilday on Tuesday, August 30, at 3 p.m.

Miss Shirley Ferrel was home from Gadsby to spend the week-end with her parents, Mr. and Mrs. H. F. Ferrel.

Miss M. LaForte of Medicine Hat is the guest of Mr. and Mrs. Gordon McIntyre for a few days.

Mr. and Mrs. Arthur Cottrell and son Glenn returned Sunday evening after visiting for a week with relatives in Calgary and Duchess, Alta.

Misses Dorothy Duncan and Eleanor Scorgie visited in Edmonton over the week-end, guests of Miss Duncan's parents, Mr. and Mrs. S. A. Duncan.

Mr. and Mrs. H. M. Halton returned recently from Edmonton, where they spent a few days at the Macdonald Hotel. Mr. and Mrs. Halton and daughter Kathleen will leave this week-end for their home in London, Eng.

En route they will visit with friends in Toronto and Minneapolis. They have been the guests of Mrs. Halton's parents, Mr. and Mrs. A. M. Campbell, for the summer months.

Miss Loretta Masters left recently for Edmonton, where she will resume her duties at University Hospital, after spending six weeks in town and at Gull Lake, visiting her uncle and aunt, Dr. and Mrs. W. T. Hynes.

Mr. J. Morris of Bellevue is visiting for a short time with Mr. and Mrs. Gordon McIntyre.

Mr. Erin McAllister spent last week-end in town visiting with his family. On his return trip to Edmonton, Mrs. McAllister accompanied him, and will spend a few days in the city.

Misses Doris Danner and Jean MacDonald spent a few days in Wetaskiwin recently, the guests of Miss Jean George.

Miss Irene Smith will arrive in town on Saturday and will visit with Mrs. E. H. McCaugherty for a few days on her way to Calgary.

Miss Tory Gibson of Coronation returned to her home recently after spending a holiday here with Miss Maxine Fitzpatrick.

Mrs. Charles Hynes of Saskatoon is a guest of Dr. and Mrs. W. T. Hynes for a few days.

Mrs. O. Kazanjian, who has been visiting with her parents, Mr. and Mrs. W. C. Sweet, for a few weeks, left over the week-end for her home in New York. She will return by way of Vancouver and Los Angeles.

Mr. and Mrs. E. A. Bowring, accompanied by Mrs. T. Wilks, returned recently from a holiday trip to Estevan, Regina and other Saskatchewan points. Mr. and Mrs. Bowring formerly resided at Estevan.

Evelyn and Harry Waller of Estevan, Sask., are guests of their aunt, Mrs. T. Wilks, for a short holiday.

Mr. and Mrs. Charles Arnold of Vancouver and Mr. and Mrs. Don Margach of Calgary spent last week-end as guests of Mr. and Mrs. H. J. Ford.

Miss Jean Brown of Calgary, who has spent three weeks visiting her parents, Mr. and Mrs. George Brown, will return to her home next Sunday. Miss Dorothy Crocker of Hardisty is spending a week with Mr. and Mrs. Brown.

Returning home from the Canadian Weekly Newspapers convention held in Vancouver, W. J. Rowe, editor of the Western Canadian, Manitou, Man., made a fraternal visit to the Lacombe Globe last Saturday. He also called on his friends, Mr. and Mrs. T. N. Lett, while in town.

Mrs. H. McKinnon of Albx was in town recently, visiting many of her old friends, who were pleased to see her.

For a few days recently Mrs. E. L. Miesner had as her guest a cousin, Mrs. A. V. J. Selkirk, of Franz, Ontario.

Misses Albert Peterson and Maxine Fitzpatrick are leaving on Sunday, Sept. 4, for Calgary, where they will attend the Western Canada Hairdressers' Convention, which will be held at the Palliser Hotel from Monday, Sept. 5, to Wednesday, Sept. 7.

Mr. D. S. Thompson received a telegram on Saturday, August 20, from his sister in Trail, B.C., informing him that his mother, Mrs. William Marquis Campbell, had died that day. Mr. Thompson departed for Trail on the first southbound bus to attend her funeral.

Mrs. H. P. Keith of Edmonton was a visitor at the United Church manse over last week-end. On her return to Edmonton on Monday Mrs. A. L. Carr accompanied her, where she will spend a week.

Say, did you see that beautiful Diamond Ring in the window of Parsons Bros' Jewellery Store? It's a "pippin". a25c

Westling

(From Our Own Correspondent) WESTLING.—Miss Gladys Jeglum was taken to the Lacombe Hospital on Sunday night for treatment. We wish her a speedy recovery.

The Chateleine Club meeting will be held at the home of Mrs. Wm. Somerville on Wednesday afternoon.

Mr. and Mrs. George Monson arrived home from their extended trip in Eastern Canada last Wednesday night.

Ernest Healing and son Patrick of Victoria, B.C., are staying at the home of Mr. and Mrs. D. Wm.

Hubert Somerville has returned to his home in Edmonton after visiting with his parents.

Robert Haskins expects to be able to occupy his new home soon.

Several cases of encephalomyelitis have been reported among the horses of this district.

Hughes Makes Another Record

NEW YORK.—Howard Hughes, round-the-world and transcontinental record holder, hung up another record recently, but it was only incidental to a research flight.

Winging non-stop from Los Angeles to New York to test a new type of oxygen mask for high altitude flight, Mr. Hughes, in his round-the-world transport type plane, crossed the continent in 10 hours 34 minutes, beating the best previous record by almost 30 minutes. He flew at an average altitude of 20,000 feet.

In January, 1937, however, he crossed the continent in 7 hours, 28 minutes and 35 seconds in a special racing plane.

D. W. Tomlinson, another research flier, held the previous transcontinental record for transport type planes.

GLOBE ADVERTISING PAYS

NEED FOR PROBATION SHOWN BY EXPERIENCES IN TEXAS FIELDS

Only by orderly development of the Turner Valley oil fields would it have been possible to save to prairie consumers the five million dollars which will be saved this year.

There is a natural tendency to minimize the marketing problems which meet Alberta producers. Marketing problems, it is often said, solve themselves.

Experience has shown the error of those who hold this comforting view. They are unaware, perhaps, of the confusion which once reigned in the oil fields of East Texas. In the process of developing its market, the price of crude oil in that field went down as low as 10 cents a barrel, when proration was put into effect, martial law had to be invoked to enforce it.

Once the benefits of regulation were realized, the views changed. It has been fortunate for Alberta and the west that the industry here has avoided the disastrous experiences which caused such trouble in Texas.

Mirror

(From Our Own Correspondent)

MIRROR.—The death occurred of Clarence Sully, 39 years of age, in the Stettler Hospital on Friday, August 19. The funeral was held in the United Church, Monday, Rev. L. Thompson officiating, interment taking place in the Mirror cemetery. The deceased had lived in this district for 23 years and leaves to mourn his loss his wife and three small children.

J. J. Maloney, at one time a lecturer and organizer of the Ku Klux Klan, addressed a gathering at the Gospel Tabernacle last Sunday evening.

Mrs. J. H. MacLean entertained for her niece, Winnifred Ross of Winnipeg, on the occasion of her 17th birthday on Tuesday evening, August 16.

Mac and Lloyd Defrain of Perintash are visiting at the home of Mr. and Mrs. E. Estell and

family have returned from their holiday, spent at Banff and Lake Louise.

Mrs. V. Sorenson of Jasper is visiting her mother, Mrs. A. D. McMillan.

Mrs. J. P. Cavanaugh of Calgary is visiting at the home of her sister, Mrs. R. B. Armstrong.

Mr. and Mrs. J. H. MacLean and their two nieces, Misses Winnifred and Dorothy Ross, left on August 19 for Jasper, where they will spend two weeks' holiday.

B. McLeod is spending his holidays at Jasper.

HONEY IN FRANCE
There is no market in France for honey packed in small containers for domestic use. Packing must be in 60-pound cans (net weight), two of these being shipped in one case. The use of table honey in France is greatly restricted. It is unknown as a breakfast delicacy and rarely used in pure form as a dessert or syrup. The minimum rate of duty applicable to Canada is 175 francs per 100 kilos gross weight, equal to slightly over 2 cents per pound.

Lacombe Gardens Have Good Season

(Continued from page 1)

some of them still remain to make this a bright spot.

The garden of Mayor E. H. Jones features a large group of dahlias, which made a fine showing a few weeks ago.

George DeLong has another fine display this year, with nice gladioli, tiger lilies and some of Lacombe's best dahlias; a splendid view of this garden can be obtained from the old C. and E. highway.

Sam Pillman again has his garden in excellent shape. He features lovely hanging flower boxes and a lawn studded with brilliant centerpieces, all well landscaped and carefully cultivated. George Brown, to the north, has a new garden he can well be proud of, featuring portulaca, clarkia, dahlias and a nice rockery.

Marigolds, sweet peas and a splendid centerpiece of mixed flowers feature the garden of Francis Buch on north Hamilton Avenue. Nearby, the gardens of O. Korsager, Mrs. M. L. Waters and Mrs. Jackson are very neat and well worthy of mention.

Another Good One
The Max Frizzell garden is also a comparatively new one but nevertheless one of Lacombe's beauty spots. It features fine pansies, nemophilis, clarkia, and some rare cacti oil plants from Ontario, which add a tropical touch to the driveway.

A nice assortment of blooms and gay flower boxes give plenty of color to the R. L. Ramsay home on Barnett Avenue.

The U. E. Reeves place presents a fine display of mixed flowers; the peonies in this garden made a gorgeous show earlier in the summer.

The garden of Dr. F. D. Locke has shown a profusion of flowers all summer, with single bloom dahlias, daisies, sweet peas and zinnias showing their best just now.

Park Is Well Kept
N. J. Glasgow has the garden in the Last-We-Forget Memorial Park in fine shape; it is nicely landscaped and has lovely plots of double and single zinnias in a circle around the Cenotaph, while mixed flowers throughout the grounds add to the general appearance.

Golden daisies and Mexican zinnias show to good advantage in the grounds of Lacombe's Town Hall.

The J. S. McCormick place has been brilliant lately with Iceland poppies, tiger lilies, gladioli and some very pretty tuberoses begonias in flower boxes.

Gordon Love lends a splash of color to the C. and E. highway to the south with a gay collection of mixed flowers.

Another Beauty Spot
On Cornwall Street, James Finlayson has made a real beauty spot of his home, with four lovely centerpieces of flowers and a rockery. Mixed flowers abound here, and Mr. Finlayson has evidently spared no pains in making this garden one of Lacombe's best.

The nearby Lovell home is bright with poppies and sweet william and Mrs. E. D. Peers has a neat little garden of dahlias, poppies, asters and snapdragons.

Spruceville

(From Our Own Correspondent)

SPRUCEVILLE.—Elmer Young is happily recovering from the accident which caused his left wrist to be broken, necessitating two days in the hospital last week.

Mr. and Mrs. Roy Burton, Mr. and Mrs. Clarence Kasha and their respective families visited with Mr. and Mrs. Nelson Hall last Sunday.

Mr. Tom Harvie and family of Edmonton spent a long week-end with Mr. and Mrs. H. E. Heath. The Junior U.F.A. met Monday night with a fair attendance, three new members joining up.

There was quite an exciting rodeo staged last week by Ralph Young, Johnnie and Billie Marshall and others. Excitement was at fever pitch until accidents, such as rent garments, caused a lull in the proceedings.

Mrs. Hazel Wells of Los Angeles, California, spent Sunday with Mr. and Mrs. Howard Saunders.

The U.F.W.A. regular meeting, planned for the lake last week, was put off on account of cold and showery weather.

Mrs. Bill Meizinger and daughter Grace of Chatham, Ontario, have been visiting old friends in this district during the past week. Mrs. Meizinger will be remembered by old-timers, for she and her family lived for many

Leader Resigns

HON. W. EARL ROWE

Mr. Rowe, leader of the Ontario Conservative party since 1936, recently placed his resignation before the provincial association's annual meeting in Toronto.

Milton

(From Our Own Correspondent)

MILTON.—The recent rain has delayed cutting but with a few warm days the binders will be going again.

Victor McArthur has gone to Montana for an extended visit with his uncle.

Mr. and Mrs. Bennett Brower were Red Deer visitors on Wednesday.

Miss Mary Ester Bean was a week-end house guest at the McArthur home recently.

Mr. and Mrs. Knipe motored to Innisfail on Sunday and brought home their son Lester, who has been visiting with his grandmother, Mrs. Park, for the last five weeks.

Arthur Park of Lacombe is visiting with Lester Knipe for a week.

E. Tudor had as his guest his brother from Vancouver.

E. Healing and son Patrick of Vancouver have arrived for an extended visit with Mr. Healing's parents, Mr. and Mrs. F. K. Healing, and are renewing old acquaintances.

Mr. and Mrs. Delbert Merrell and three children of Ponoka were visitors of Mr. and Mrs. Dudgeon on Sunday. Ruth Merrell will remain for a week's vacation with Marion.

Only One Fatality
The only fatality from encephalomyelitis in this district was Mr. Rathje's horse, while Mr. Knipe's and Mr. Talbot's horses, which were stricken, are now recovering nicely.

Mr. and Mrs. Jack Mytton and family were Sunday guests of Mr. and Mrs. Bill Waldron at Bentley.

Mr. and Mrs. F. K. Healing and family visited with their son and daughter-in-law, Mr. and Mrs. Charles Healing of Ponoka, Sunday.

Visitor to Innisfail
Bennett Brower was a visitor to Innisfail last week.

Jackie Rathje was a recent visitor with his grandmother in Lacombe. Evelyn Rathje had Mabel Hutton of Lacombe as a visitor recently.

Mrs. R. R. MacIntosh and sons Dean and Charles have returned to their home in Richmond, Wash., after an extended visit with her parents, Mr. and Mrs. D. Hill, Sr. Mrs. Charles Abbott accompanied her.

August is the wheat harvest month of Canada, the northern United States, and northern Europe. November is South Africa's harvest month and December, Australia's.

it's agin the law
to use a gun . . .

The best way to hunt
Customers is to use
The Lacombe Globe

It wouldn't do to take a gun to go out for customers. Hunting customers requires a clever technique, but some business men are blind in their search for more business.

They are blind to the fact that advertising is good business. The investment in space in the columns of The Lacombe Globe is an investment which will return quickly and many times over in an increased sales volume.

Form the habit of keeping the news of your business before the public through The Lacombe Globe. Our readers are quick to take advantage of shopping opportunities. Your business will increase and more trading will be done at home by the shoppers.

It is more convenient to trade at home . . . Readers of the home-town paper patronize our advertisers. You don't need a license to advertise. Just phone us. We'll be glad to help you solve your advertising problems.

Tees Tattle Tales

By TATTTLER

TEES.—The continued damp weather is holding up cutting of grain crops considerably and will make a last-minute rush to complete harvesting before frost, if we are fortunate enough to do that.

Last week, at least for a few days, the Scribe was walking around with one eye bandaged and the other dripping in sympathy. This was all caused by the tiny cinder imago. So if little things can bring tears to his eyes, what would a big thing do?

Dirk Lakeman left for Lacombe Monday to put himself in the doctor's care again to see if he can get the pain removed from his back and side.

Quite a number of local farmers and townfolk are considering the possibility of forming a "C.C.F. Club." At present the groundwork is being prepared and in the near future the cornerstone of a strong club should be laid. Those who are progressively minded are urged to put their shoulders to the wheel and help an organization which has become world conscious and is endeavoring to make it a respectable place to live in, by all.

A Colorful Accident
While in the act of painting the side of their store the scaffolding gave way on one end, unloading Don McDougall and Reg. Wilkinson rather suddenly. Luckily, neither were hurt, but Don had a pail of paint spill on his head and has been working it out ever since. Reg. had the misfortune to have his pail land first and spill just before he sat in it. You might imagine the amusing sight they made.

The creek that runs through the old swimming hole has been a busy place during the past two weeks. Most of the young folk are in the habit of holding water, potato or corn roasts every night. It both uses up the surplus commodities and keeps the kids out of mischief.

THIRD ANNUAL CATTLE SHOW AT SASKATOON

SEPTEMBER 28 AND 29

The third annual show and auction sale of feeder cattle and calves will be held at Saskatoon on September 28 and 29. Prizes are offered for groups and carloads of cattle, as in former years, a carload calling for at least 25 cattle, and a group, 10. In addition to the prizes awarded last year, special awards are being given.

Musically Minded Feline

This is Fluffy, six-year-old white Persian, whose love of music takes her to the piano every chance she gets. In fact, Fluffy's owners, who live in Montreal, say the cat protests quite vigorously if the living

room door remains closed all day and she doesn't get a chance to practice on the piano. Fluffy is always taken out on a leash when she goes for a walk and pads along in a most dignified manner, evidently enjoying the outings.

Government Collections Increase \$406,491

By T. B. WINDROSS

EDMONTON.—The Alberta Government's financial statement for the fiscal year's first quarter, which ended June 30, was made public last week. It showed heavy increases in less than a year from taxpayors in comparison with the corresponding period for last year; a total of \$7,125,622 was collected by the Government during the three months, an increase of \$406,491. Total expenditures for that period increased \$217,947 to a total of \$5,563,064.

The expenditures do not include approximately three quarters of a million dollars which is being withheld in reduced interest payments on the provincial debt, or \$214,000 which was cut from relief grants in comparison with last year.

Dominion Government grants for direct relief in drought areas were increased by almost \$345,000. When these items are considered, said observers here, it is obvious that despite the reduced payments and grants, Alberta's Government is costing steadily more, although close to \$25,000,000 has been defaulted in the last three years and is not taken into account in expenditures.

Reduction of \$267,727 in the provincial debt, to a total of \$156,747,689, was announced for the three months. Most of the decrease was accounted for in savings certificates, of which about \$7,000,000 are still outstanding. The total figure on the provincial debt does not include the \$7,000,000 interest defaulted, but does count the unpaid and overdue maturities of principal.

Solon Low Returns
Back in Edmonton after his trip to Salt Lake City and Los Angeles, Provincial Treasurer Solon Low talked with the Premier for a while and then asked newspapers to quote him as denying that he had intended to try to replace Aberhart as Premier. "All poppycock—the product of a twisted mind," he said.

It became known that Mr. Low's hopes of arranging a refunding scheme on his own initiative were dashed on his trip south. He is expected now to remain in the background on the new quiet insurgency against the present Government. In the meantime, Aberhart denied that he planned any changes in the cabinet.

Magistrate Dismissed

Dismissal of Magistrate A. H. Gibson of Edmonton was a highlight of the week around the capital. The Premier, who is also Attorney-General, refused to state his reasons for firing the magistrate. Mr. Gibson refused to present his own case to the public at once. It is rumored, however, that he had a clash with the Government a few months ago over the Powell and Unwin cases—that the Government tried to dictate to him the procedure to be followed, and that he refused to take orders as to how he should conduct the case or what decisions he should render at the preliminary hearing.

Sturgeon are native to the Atlantic and Pacific coasts and some of the inland waters of the Dominion. Sturgeon roe is used for making caviare.

Bentley

(From Our Own Correspondent)

BENTLEY.—Miss Jean Marshall of Tees has been visiting at the home of her aunt, Mrs. Lulu Thorp.

Mr. and Mrs. W. Warren, Sr., of Toronto, Ont., are visiting with their son, Rev. C. A. Warren, and family, for two weeks.

Isobel and Diana Henry are spending several days with their aunt, Mrs. O. Hedemark, at Sylva Lake.

Mrs. Redmond and son Douglas of Bassano were visitors here the past week at the home of Mrs. Redmond's uncle, J. B. McPherson. Mrs. McPherson will be remembered as Miss Alice McPherson.

Return From Iowa

Mr. and Mrs. J. C. Carritt and Mr. and Mrs. Fred Carritt returned recently from a two and a half month stay in Iowa, where they were called by the illness of Mrs. Carritt's mother, who passed away on August 8. Rev. Allan and Mrs. McPherson of San Francisco, Cal., were guests at J. B. McPherson's home last week. The Rev. McPherson stopped on his way to Edmonton to visit with brother, J.B., whom he had not seen for 34 years. He is holding services in Edmonton. Modernistic in design is the newly renovated office building of the Blindman Valley Co-operative Association Ltd. which has made a pleasing addition to our main street. D. Wyanko has made a good job of stuccoing, and a new cement sidewalk improves the front. It is under the three pillars which decorate the entrance. It has been appropriately named by Dr. Henry who will give the desired information to anyone interested.

CHRISTIAN SCIENCE

At all Christian Science churches next Sunday, the subject of 1st Lesson—Sermon will be "Christ Jesus." One of the Scriptural quotations contained in the Lesson—Sermon is 1st Corinthians 15:20, "But now is risen from the dead, and become the firstfruits of them that sleep." One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is: "The resurrection of the great demonstrator of God's power was the proof of His final triumph over body and matter, and gave full evidence of divine science,—evidence so important to mortals. The belief that man has existence or mind separate from God is a dying error. This error Jesus met with divine Science and proved its nothingness." (page 42).

C.P.R. Announces Coast Excursions

Those who are planning early Fall vacations will welcome the announcement of bargain fares to the Pacific Coast by G. T. Jackson, local Canadian Pacific ticket agent.

Tickets will be on sale Sept. 3 to 11, inclusive, with 30 days' return limit, and will permit stopovers at Calgary, Nelson and stations west, allowing passengers an opportunity of seeing the Rockies in their Autumn splendor.

A feature of these fares will be the privilege of tourist or standard sleepers at slightly higher rates and usual berth charges. A special fare good in coaches will also be available.

Australia Popular For World Tourists

SYDNEY, New South Wales.—Last year 28,000 from overseas visited Australia, and they spent approximately £1,700,000 here, according to H. C. Fenton, European Manager of the Australian National Travel Association.

"This year as a result of the 150th Anniversary celebrations, we expect that the number of visitors will exceed 40,000 and that their expenditure will amount to more than that of last year. Eight years ago, I could have counted the number of firms in Europe which represented Australia from the travel point of view on the fingers of one hand. Today, there are 600 or 700 agencies in Europe stocked with literature, maps and pictures about Australia," he said.

"U" AND "I"
When we separate the word "business" into its component letters, B-U-S-I-N-E-S-S, we find that "U" and "I" are in it. In fact, if "U" and "I" were not in "business" it would not be business. Therefore, if business is to remain "business," we must keep "U" and "I" in it.

Furthermore, we discover that "U" comes before "I" in business and the "I" is silent—it is to be seen, not heard. Also, the "U" in business has the sound of "I," which indicates that it is an amalgamation of the interest of "U" and "I" and that when they are properly amalgamated, business becomes harmonious and altogether profitable.—See Lines.

I'VE TRIED ALL THE TRICKS I KNOW, BUT HE DOESN'T FALL

The only thing slim about some girls is their chance of landing a husband.

New Lamp is Water-Cooled

CLEVELAND, Ohio.—Development of a new 1,000-watt mercury lamp producing so brilliant a light that it has been called a "midnight sun" was announced recently by the General Electric Company.

The new lamp is slightly more than three inches long. It consists of a small quartz tube which contains a tiny bore enclosing a globule of mercury and a trace of argon gas. Each end of the quartz tube is furnished with a brass terminal providing proper electrical contact. The light source, a highly concentrated arc, is approximately 12 times as brilliant as the incandescent filament of a 1,000-watt standard projection lamp.

In producing so brilliant a light, such high pressure and heat are developed that the lamp would destroy itself if a cooling system were not provided. By developing a glass cooling jacket, permitting three quarts of water per minute to flow past the gleaming lamp, engineers found a practical way to carry off excess heat without affecting the light output.

Very Steady Light
Engineers of the General Electric plant believe that the "midnight sun" will revolutionize lighting practice in numerous fields of light projection. Since its tunnel is so tiny that it can neither wander nor wiggle, the arc stream is said to be remarkably steady, making it an ideal means of illumination for photo-engraving.

Through its use, the engineers report, newspaper cuts have been produced having an almost perfect screen. Even when viewed under a microscope, each dot appeared astonishingly clean cut. "Obviously," they say, "the more clearly defined the dots on an engraving plate, the more faithful the halftone reproduction of the illustration."

Other uses in which laboratory tests indicate that the new lamp can be used to great advantage include blue-printing, photo-enlarging and in search lights.

To Our Subscribers

Our mailing list has been revised to date, and the little yellow label shows the date your subscription expired. We wish to thank those of our subscribers who have renewed their subscriptions during the past few months. To those who have not renewed, we would respectfully ask that they examine the address label on their paper, and if their subscription is due, to kindly arrange for payment.

Sometimes subscribers feel that the little they owe is not worth bothering about, yet in the aggregate they amount to a great deal, and are of considerable importance to the paper. To our readers we ask that they do not overlook this little matter.

Honest Aid!

It was Lincoln, wasn't it, who gave us that epigram about fooling some of the people all of the time and all of the people some of the time? Times have changed. Some people, today, can't be fooled at all.

They are the ones who buy thoughtfully and spend wisely. They are guided by the most up-to-the-minute news about products, prices and values. They read the advertisements in their local paper.

Whether you're marketing for tonight's dinner, for a refrigerator or a home—the most reliable guides are printed right here in The Lacombe Globe for you to read. Make it a habit to shop at home, by newspaper, before you set out. It saves time, saves tireless searching, and it saves real money.

Mr. Merchant

Make sure your sales message appears every week in these columns for the guidance of local buyers and thus keep the local dollars at home.

Germany Fortifies Its Czech Border

BERLIN.—Germany not only is fortifying its Rhineland frontier, it became known August 20, but also is carrying on extensive defensive construction along the Czechoslovak border in the mountains of the Erz Gebirge.

This part of Germany, formerly visited by crowds of German vacationists, now is, practically closed to tourist traffic.

Even Germany's "strength through joy" vacation trips, formerly scheduled for this part of the

country, have been shifted to other sections, as have the trips scheduled for the Rhineland. Mobilization for the autumn maneuvers and the large-scale fortification construction along the frontiers have created a severe shortage of skilled labor.

Berliners were surprised recently to find the city's advertising pillars plastered with large yellow placards demanding that all former officers or reserve officers below the rank of major general and under 65, who have not yet registered, report to their local police stations. Failure to report within the specified time carries heavy fines.
